

THE MORNINGTON YACHT CLUB

ESTABLISHED 1946

Bret Levenspiel

FROM THE COMMODORE : SLIPWAY 4

Although the slipping of *First Light* was successful yesterday our observations highlighted further repair work.

Today our diver managed to complete that work and slipping may again continue. It is probable that slipping will restart tomorrow (Friday, 28th) however, as always, it will be weather dependant. Please ensure you are ready for slipping because we rely heavily on volunteers to make this happen.

As you may be aware, the Port of Melbourne Authority has appointed Mornington Yacht Club to manage Mornington Harbour on behalf of the Authority. Accordingly, this is a good point in time to remind all mooring permit holders to observe all the *mooring permit conditions* including the need to have your mooring inspected and to provide a report to our office.

Further, I remind all boat owners the requirement to have suitable boat *insurance*; details of which must also be provided to our office.

I welcome any feedback from all our members and email is best commodore@morningtonyc.net.au.

If you prefer to call, 0411 875 502.
