

Our **MYC History Committee** has recently been formed to gather information to help celebrate our 70<sup>th</sup> birthday! The team is being led by John Lynch who has been a member of the MYC since 1966.

MYC commenced in 1946 in a small shed on the site where the present Yacht Club stands now in 2015.

The club has changed somewhat in appearance since then, but still retains the enthusiasm for sailing plus the energy and interest of the club members, in volunteering their time in the running of all aspects of this family Club.

The team is looking to seek any information which depicts the club's beginnings to 2015. Any information around sailing, fun days, yachts, junior sailing, youth sailing, opening days, fun night dinners, BBQs, incidents funny or not so funny, or personalities (maybe long forgotten) anything you may have

tucked away in draws and boxes, now is the time to have these remembered and recorded.

The team is hoping to have a great response to this 70th Anniversary and will be busy seeking out information, asking questions sorting through archive material to do justice to 70 years of yachting experiences enjoyed by members and families.

The team will respect any information given to us, to make sure your information will be returned, we request your material be handed into the MYC office contained in an envelope, folder or box with your Name Address and the date of delivery clearly shown. Any photos should be labelled on the back using a lead pencil. The information will then be processed or copied and safely returned to you. We take it that any photos provided to us have your permission to be published.
