

# THE JOKER

This year we are introducing a new component to the footy tipping – “The Joker”

The idea of the joker is to enable the tipster to double their score of one round they choose.

All you have to do is...

- Choose the round you desire
- Put a cross in the right hand side of the round no. (where the blank space is set aside for *winners*).

You can only use the joker once & it must be nominated before the round commences.

The joker cannot affect the jackpot which can only be won by selecting all nine (9) winners of a round.

The jackpot will not operate during rounds 9,11,12 & 13 as byes are involved and less than 9 games are played on these four (4) rounds.

If you have any queries don't hesitate to ask me,

*Andy Whitbourne*
