The Restoration Project

Our boat restoration project has got off to a great start, enthusiasm for this project has been so encouraging, with our youth members; Sam Bostock-Young, Michael Harrington & Alex Ferguson working in really well with our older members; Bob Barr, Richard Trembath & Len James. They have managed to sand back the 420's and have them now ready for painting. (We need about 4 litres of two pack paint - does anyone have some left over?) Pete Delange has kindly offered to spray them, hopefully within the next fortnight.

Len James has done a great job in constructing two Flying Fifteen dollies we have "Tis Irish Luck" on hers and yes we now have another one "Goose". We hope to pick *Goose* up this Saturday.

Tis Irish Luck (above & below photo) was kindly donated by member Tony Stephens - we towed her back from DBYC a couple of weeks ago.

Goose has been purchased for \$1.00 from Jane Walker from DBYC. We would like to thank Jane & Tony for their generous offer. These boats will go a long way to assist our Training School.

Our Sponsor for our restoration project is Mary Bruce Natural Organic Skincare. Mary has been offering a terrific range of products since 1984. Her skill and dedication to her range ensures you all will be happy with the results.

So boys and girls if you are thinking beauty, Think Mary Bruce - especially with Father's day coming up!! You must check out Mary's signature product "That Creeme for Sportsmen & Women".

Graeme Alexander, Commodore

The Mary Bruce Story

During the early 1970's, while involved with the production of prestige cosmetics and watching their manufacture...the Mary Bruce dream was born!

As a qualified Beauty Therapist, from the early 1970's Mary gathered vast experience in her chosen career. Travelling throughout Australia and overseas, Mary worked and studied with elite cosmetic houses such as Estée Lauder, Max Factor, Christian Dior, Lancôme, Shiseido, and Elizabeth Arden.

During her journey, Mary had always dreamed of creating her own effective, natural skincare range that would not only feel fabulous but also be quick and easy to use. Throughout her career, Mary met so many women struggling with skin reactions and sensitivity resulting from the harsh chemicals found in many types of skincare. It became Mary's strong belief that when calling on Mother Nature for skincare solutions, an answer is always provided.

Shortly after Mary was married, an opportunity to begin her own Beauty Therapy business presented itself. Through her business, Mary began creating her own skincare range. Because of the natural ingredients found in her products, Mary had no problems testing her prototypes on her friends, family and even her children.

Today, people throughout the world use Mary Bruce Natural Organic Skincare and love it. And while there are many ranges and types of skincare products

The Restoration Project continued...

available in today's market, Mary firmly believes that there is no substitute for a product line that's 100% derived from the Nature we live and breathe in every day of our lives.

Mary loves sharing her products and extensive skincare knowledge and is fully confident you will enjoy the results you'll find from following your own Mary Bruce skincare ritual.

At Mary Bruce we believe good skin care is essential...

Mary is coming along to our Ladies Lunch this Friday to show us her fabulous products – everyone is welcome, ladies, gentlemen & friends!

Sam Bostock-Young, one of our Youth Scholarship members who's involved with the project has given up an update on how things are going.....

"The restoration project started with one 420, after cleaning and sanding the first boat we were pleased with how well it turned out and decided to start on the second 420. A Flying Fifteen was donated by Davies Bay yacht club. So we now have two 420s and a flying fifteen. These boats will be great club boats for people wanting to use.

At the moment the two 420s have been completely sanded and most holes have been bogged or filled

with epoxy resin. They are almost ready to be repainted and refitted.

The flying fifteen has been cleaned and the dolly is almost complete courtesy of Len. When we received the Flying Fifteen it was in better shape than what we thought, although the trailer was pretty bad, the boat was in good shape with only a few fittings needing replacement here and there.

It has been a good experience so far working with Michael, Alex, Richard, Bob, Len and Graeme, and I can't wait to see these boats in the water"
